

How to play Phozzle

Phozzle can be played as a whole classroom or group activity using the interactive whiteboard, or as a paired or individual activity on iPads and tablets.

It is perfect for reinforcing children's learning of Phases 2 to 5 at school or at home by combining phonics with handwriting practice. Play again to practise all the phonemes!

Here's how to play:

- Choose a picture to start.
- Click on a jigsaw piece to hear the sound of the phoneme or grapheme.
- Click again to hear how it sounds within a word.
- Click again to neatly trace the phoneme or grapheme.
- The jigsaw piece will disappear to reveal part of the picture underneath.
- Repeat this with each jigsaw piece until the whole picture is visible.
- Use the picture as a cue for whole class or paired discussion.
- Don't forget to look for the hidden curly caterpillar in each picture!

Ideas for picture discussion:

- What is happening in the picture?
- Who are the characters?
- What is the weather like? How do you know?
- What do you like about the picture?
- Imagine you are in the picture, who would you be?
- Where would you be?
- What are you doing?
- Describe where the curly caterpillar is.

Choose a picture to start.

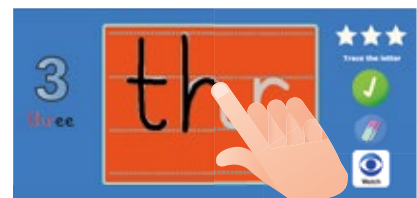

Click once to hear the sound.

Click again to hear the word.

Click again to practise writing.

Neat writing is rewarded with a piece of the jigsaw being removed to reveal the picture.
